To Whom it May Concern,

It is my pleasure to recommend Brigham Tovar to you. I am the Enrollment Office Manager here at Ensign College and I have worked with and supervised Brigham for over 6 months. He had been employed as a student as part of the Front Office Call Center team since the Fall of last year.

Brigham had been a great asset to our Call Center team and would be a great asset to any job or internship program. He is reliable, responsible and a self-starter. He takes every opportunity to look for ways to improve processes and make them better. I always knew that if a project needed to be done, Brigham would take the lead and be able to complete it on time. He is intelligent, has good analytical skills and pays attention to detail. As part of the Call Center team, he showed leadership skills and took the chance to help train new employees as well as bring a positive presence when helping new students attending Ensign College.

Along with being a dependable coworker, he is a pleasure to work with and consistently maintains a positive attitude.

I would highly recommend Brigham for any position, and I know that he would make a reliable worker for any company or organization.

Please feel free to contact me if you have any questions.

Sarah Schmitz
Enrollment Office Manager
